4eBin™

High visibility and
easy maintenance

Technical sheet

Treat shoppers to a transparent experience

Use bins to engage and attract

4eBin™

Ecological

Help to reduce food and packaging waste.
Made from recycled material and fully recyclable.

Economical

Let's shoppers buy their desired quantity,
and favourite mix.

Ergonomic

The bin architecture brings an easy way of use and
maintenance

Easy-clean

Our revolutionary design allows for cleaning
the bins without removing them from the shelf.

Creating new business opportunities

Bulk merchandising delivers on shoppers' desire to choose the amount of product they would like to purchase while helping to reduce packaging waste.

Made from recycled plastic** and part of our Sustainable Choice range, 4eBin™ offers a sustainable shopping experience.

* The NSF certification cleanability guarantee: the design has been verified to ensure ease of cleaning and protection of food from contamination. www.nsf.org

** As from January 2020.

Less waste, higher margins and efficient product rotation

Hygienic and efficient

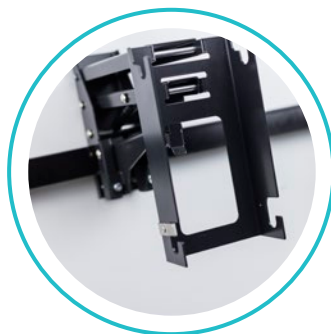

Gravity bins offer great product visibility in a hygienic closed system that ensures 'first in, first out' product rotation. They are made of virtually unbreakable material approved to use for food. Standard flow control and ergonomic handles ensure an optimal shopping experience and help to reduce shrinkage. An efficient and innovative design makes cleaning more intuitive and easy to do.

For high level fixtures, gravity bins can be installed using a swing down arm for easy replenishment and cleaning and agitators for slow-moving products are available as well.

Range overview/Selection options

Gravity bins
with various sizes
and functionalities

Mounting holders
for cross bars
and shelves
